TECHNICAL DATA SHEET

PRODUCT NUMBER	DESCRIPTION
M610-4107	8XCAB WHITE TINT BASE

PRODUCT DESCRIPTION:

Mohawk CAB White Tint Base is a non-yellowing color strength controlled 40 sheen base for tinting, with Mohawk M844-series Xpert® Colorants, custom coating colors. The CAB White Tint Base is manufactured to close tolerances to produce a consistent color base in both strength and hide so colors can easily be reproduced. Contains a proprietary blend of additives and solvents to aid in colorant acceptance into the coating and minimize color float. The CAB White Tint Base can be top coated with most Mohawk coatings including; Finisher's Choice™, Buffcote™, DuraCoat™ Pre-Cat, DuraCoat™ II Post-Cat, VersaLac® Post-Cat, CAB/Acrylic, Ultra® Clear Conversion Varnish, and Ultra® Flo Conversion Varnish.

ADVANTAGES:

1. Passes KCMA standard testing
2. Readily accepts Mohawk M844 series Xpert® colorants
3. Will not yellow or amber
4. No recoat Window or pot life
5. No mixing or reduction necessary

DIRECTIONS:

Stir or shake tint base thoroughly before and after adding colorants. Add desired amount of colorant, see note below, and compare to color standard after mixing to check and assure desired result is achieved.

NOTE: Do not exceed 10% of total colorants by volume (12 ounces per gallon). Lower sheens may also be achieved by adding Mohawk Flattening Paste (M716-1706). See Flattening Paste PDS for flattening chart. DIRECTIONS FOR USE: Stir or shake tint base thoroughly before use. Apply 1-2 coats of mixed color by spraying over freshly sanded substrate. Apply in full, 3-4 mil, wet coats and allow to dry for 30-45 minutes before reapplying. Sand thoroughly between applications with 320-400 grit sandpaper and remove sanding dust before additional applications. Top coat with appropriate sheen coating, see description above for compatible topcoats, to protect against metal marring and/or if higher/lower sheen is required. If a non-yellowing coating system is desired top coat only with CAB/Acrylic Clear Lacquer, Ultra® Flo Clear Conversion Varnish, or Ultra® Clear Conversion Varnish.
